

FOREWORD

I am pleased to introduce the Crawley Borough Local Plan, 2000. The Local Plan, together with the West Sussex Structure Plan 1993, forms the Development Plan for the Borough of Crawley. It contains a variety of policies to guide the use and development of land in the borough until 2006. The Plan aims to enhance the quality of life in the borough by protecting and improving the environment whilst at the same time making provision for new development such as homes and workplaces.

The Planning Committee, at its meeting on 21 February 2000, recommended that a Notice of Intention to Adopt the Local Plan be issued following the consideration of representations on further proposed modifications made in the light of a government direction on the development of the North East Sector. The Local Plan was adopted on 19th April 2000.

*Councillor D. Murdoch
Chair of Planning Committee*
